Title: System and method for conducting an electronic financial asset deposit auction over computer

network

## **Appendix**

Text of Claims as per this Appeal.

5

15. A method for soliciting competitive terms of deposit operating on a deposit auction system, said system including a programmed computer connected to a network accessible by a plurality of users within a first selected period of time and anonymity means for concealing the identities of prospective depositors, the method executable at said computer comprising:

10

a) receiving a deposit application from a prospective depositor who is a respective one of the users offering money, securities or financial equivalent deposit offer terms;

15

b) assigning a handle to conceal a real identity of said prospective depositor and displaying said depositor's application anonymously;

20

25

c) receiving from at least one financial institution, who is a respective one of the users communicating over the network, at least a bid for said deposit application wherein said bid being deposit terms comprising at least one of: type of guarantees, payment schedule, deposit rate, securities in exchange or

terms of exchange; and

d) receiving an electronic instruction from said prospective depositor,

Title: System and method for conducting an electronic financial asset deposit auction over computer

network

notifying and authorizing at least one selected financial institution to access a real identity and personal information of said prospective depositor for a second selected period of time.

- 16. The method according to claim 15, further comprising a step of receiving from said prospective depositor communicating over the network, an electronic instruction selecting at least one of responsive financial institutions bided for said depositor's application.
- 17. The method according to claim 15, includes a step of verifying the ownership of said money, securities or financial equivalent as subscribed by said prospective depositor.
- 18. The method according to claim 15, further comprising a step of
  maintaining data representative of bids for the prospective depositor's
  application in a database accessible to users over a network, said data
  comprising depositing terms, type of guarantees, payment schedule, deposit
  rate, securities in exchange and terms of exchange information on each of a
  plurality of submitted responsive bids.

20

19. The method according to claim 15, adapted to further promote a completely anonymous deposit auction, comprising :

assigning a handle to conceal a real identity of said financial institution.

10

- 24. A deposit auction system including a computer connected to a network programmed to perform the method of Claim 15.
- 25. A deposit auction system including a computer connected to a network 5 programmed to perform the method of Claim 16.
  - 26. A deposit auction system including a computer connected to a network programmed to perform the method of Claim 17.
  - 27. A deposit auction system including a computer connected to a network programmed to perform the method of Claim 18.
- 28. A deposit auction system including a computer connected to a network programmed to perform the method of Claim 19. 15
  - 29. Computer executable software code stored on a computer readable storage medium implementing the method of claim 15.
- 30. Computer executable software code stored on a computer readable 20 storage medium implementing the method of claim 16.
  - 31. Computer executable software code stored on a computer readable
